

the **ZEUS**

\$1699.99

The Zeus watch is our second model that contains all of the previous features on the Atlas. Users may connect the Zeus to their phone and stay up to date with notifications. Additionally, this model allows you to charge any phone that is compatible with a wireless charger, by just laying the watch on the device. Because of the longevity of the battery life, it can charge a new iPhone up to 2 times. The screen on the Zeus watch also allows the owner to access any apps that they desire.
